FROM THE TEAM YIP

We at **Young India's Parliament** truly acknowledge the power of education through awareness through

academic simulations which impart the qualities of **responsibility, togetherness, diplomacy and negotiation** and the influence that these parameters carry so as to bring reform in the society, for these are the absolute necessities to ensure the **survival and development of mankind**. A world dispossessed of development and productive reforms will surely fall apart and return to the jungle era in which the strong prey on the weak. Through this initiative, we would sincerely endeavor to promulgate the highly entailed spirit of **benevolence, maturity** and the importance of a **fruitful debate**, for we all are the ones that can be the change we wish to see around the world.

The **YIP Team** hereby takes this opportunity to invite you to be a part of this principled initiative at the **Symbiosis Centre for Management Studies, Pune**

on **16th, 17th and 18th of , August 2019** and together preserve the essence of goodwill and generosity.

Let the true spirit of democracy always prevail.

At the Nations's service, we shall always remain.

-Team YIP

LETTER FROM THE CONVENER

Greetings to prospective Stakeholders. It's an absolute privilege for me to invite you to the Pune Chapter of the Young India's Parliament 2019 on behalf of the Office of the Convener. YIP being a unique affair, gives stakeholders a platform to voice their opinions on matters of national importance, engage in political dialogue, and constructively debate towards a better nation. And thus, moving ahead towards preserving the essence of Parliament simulations that is on the brink of an unfortunate downswing, we at YIP are stepping up to encourage and push the new generation of students to participate and debate in this YIP and surpass the current prevailing levels of qualitative debate and expectations. For this very purpose, we see ourselves simulating parliamentary forums which truly fall under the ambit of national affairs, which students can use to step forward into the world of democracy, slowly, inch by inch to further realize the importance of such issues and discuss them.

It would be our privilege to host you at Symbiosis Centre for Management Studies, Pune on the 16th, 17th and 18th of August, 2019 and we sincerely hope that you shall grace us with your presence.

With the spirit of utmost optimism & benevolence!

Sincere Regards,

Ishaan Joshi

Convener

LETTER FROM THE PRESIDENT

Greetings Readers, 'Youth' this word in itself holds immense power to make you think twice- 'Is the young generation going to shape the world of tomorrow or is it the face of India today?' 'Young India's Parliament' was started with the motive of giving the much needed realization to the youth of their underlying potential which would make the young minds act from 'today' rather than wait for 'tomorrow'.

This unique concept sets a platform for the young to **take action, brainstorm** and get involved into country matters from an **embryonic stage of development**. We believe that such conferences provide a portal to the delegate students to go to a place where they want to reach, from where they are, not directly, but indirectly by polishing their **interpersonal skills** along with making them street smart and efficient negotiators. Give India a chance, Give the students this opportunity. It's time for the youth to take the podium and deliver the speech of success for our country. It's there, it's

ready, all what we need is the T minus launch to make this world a better place. **Cheers to India, Cheers to Youth.**

- Warm regard,
Nitish Jain
President
nitish@yipindia.in

ABOUT THE EVENT IN BRIEF

The event simulates the whole **Indian Democratic Political system** consisting of the debate as well as the party voting system.

We strive to bring an **actual difference**, a change in the mind set of the youth - to let them know the real power and importance of the political system on which we frown upon currently.

We think it's only **corruption and politics** - ignoring the important aspects. We want to make them believe that they can make a change now, not necessarily in future.

Here we have two major aspects - **Parties and Forums**, both these things are run parallelly by the participants.

They've got the role to represent their own views and debate, stating their opinion in the forum along with simultaneously creating their **party's name, logo, identity and running for the elections** with this

self made party. They will even go through voting at the end of the conference resulting in an elected **Prime Minister**.

WHY YIP?

No matter what anyone says, at some point in our life, we've come across a decision that our government has made that's surprised us or has at least produced a little sigh. "Politicians are the same all over. They promise to build a bridge even where there is no river" is the notion that we all have of politicians.

Well, it is time to prove them wrong. **Young India's Parliament** is our answer to that sigh. **Young India's Parliament** is our take on **Student Parliament** which focuses on **current social and legal issues** faced by the youth at a local and national level. It is our aim to provide students with a platform to express their opinions and ideology regarding political issues and also network with other opinionated youth.

The event is organized with the primary motive of informing the youth about the working of the **Indian Political system**, and how the youth can lead India to a **better future**.

WHY YIP?

One of the most fundamental reasons for organizing such an event is to provide the youth with a platform to express their opinions **without any barriers and restriction.**

We want them to know that words and idea do matter and one can bring about a change in the system and that idea may well be yours.

We have compiled a unique procedure for the event with primary importance given to the satisfaction of most of the interests of the young minds and to polish their **debating, negotiation skills, collaboration skills, leadership qualities, management, designing and various other skills.**

We aim to develop a sense of **responsibility, clarity, and sensitivity** in the minds of today's youth regarding India and its way of governance and make them feel proud to be citizens of India.

OUR AIM

- To make realise the youth of their **current potential** rather than postponing their role into future.
- To address **social, economical, cultural and scientific** issues through a positive political dialogue.
- To be a cornerstone to **parliamentary simulations** across the nation, which have become absolutely scarce.
- To provide a platform to the stakeholders to improve their **leadership, communication and negotiation skills**.

FORUMS AND BODIES

About Parliamentary Forums

The Parliamentary forums have been constituted with the objective of equipping members with information and knowledge on specific issues of national concern and in assisting them to adopt a result-oriented approach towards the same.

1. Forum on Education

The forum on education shall primarily deal with the deliberation over various policies and practices to promote inclusive intellectual and spiritual growth of every citizen. It also takes into consideration the enhancement of scientific research, assess and evaluate the outcomes of education in the country and collect useful data, promoting excellence in various educational aspects and advocating for education at all levels.

FORUMS AND BODIES

2. Forum on Climate Change and Sustainable Development

With due emphasis to the recent ongoing international dialog on climate change getting underway, especially the Paris agreement. The forum on climate change shall discuss the reduction of greenhouse gas emissions, the global Clean Power Plan and its implications on our country's domestic policies and various other methodologies for ensuing sustainable development.

3. Forum on National Security

The forum shall act as a think tank to raise, discuss & propagate issues of national security. Only a secured nationhood can provide peace and prosperity to citizens. Thus the forum, shall endeavor to discuss the issues pertaining to national security to take a holistic view of our current concerns on defense, international relations and relevant social systems keeping national security at its core.

FORUMS AND BODIES

4. Indian Press

Considered to be one of the founding pillars of the Indian democracy, the Indian media acts as a perfect intermediary between the common people and the lawmakers.

Considered to be the undoubted voice of the people, it makes everyone aware of the political scenario of the country and is so powerful that it not only has the ability to change someone's perception towards an issue, but has been known to have brought a paradigm shift in the ideologies of the relevant actors and concerned authorities.

Plus it constantly reminds the lawmakers about their unfulfilled promises. Thus keeping them always on their toes.

FORUMS AND BODIES

Deliverables from the Indian Press

The Indian Press in Young India's Parliament will try to cover the maximum intricacies of the Indian Media and its Media Houses in the Indian Polity. This body adds to the crisp and fire in the Political atmosphere created on the days of the event.

1. Every media house need to cover everything.
2. Appointing media managers.
3. Covering the elections.
4. Press conference.
5. Mini debates coverage and organizing.
6. Opinion poll (through survey) and exit polls (through survey).
